MISSION UPDATE: The primary archive has yielded four more highly corrupted records. Our adversaries have heavily manipulated these payloads to stall our progress. Decode the strings to uncover the hidden targets. Time is running out.

RECOVERED RECORD F08

A damaged storage block yields record F08. The payload appears to be written in pairs of characters, but certain values have been distinctly corrupted by the system error.

```
42 41 53 4Y 45 54 42 41 4X 4X 20 43 4U 55 52 54
```

MISSION QUESTION: WHAT DOES THIS PAYLOAD REVEAL? DECODE IT AND RECORD YOUR FINDING BEFORE MOVING ON.
